attention FDA: keep irradiation labeling!

Re: Docket # 98N 1038,
"Irradiation in the
Production, Processing,
and Handling of Food"

I believe the FDA should keep its requirements to prominently label irradiated packaged foods and non-packaged foods by always displaying the radura logo along with the words "treated with irradiation." I feel alternative terms such as "cold pasteurization" are misleading and should never be used. In fact I feel that deceptive labeling as such is in fact criminal!
